

CENTRACARE CLINIC

Saint John's

Welcome to CentraCare at St. John's University. We are a family medicine clinic located on the SJU campus on the ground floor of Mary Hall. We are open Monday through Friday when school is in session, with limited hours during summer and academic breaks. Hours can be found at <https://www.csbsju.edu/centracareclinic>

We provide a broad spectrum of services, including physical exams, travel consults, sports' physicals, sexual health consultations, immunizations, allergy shots, and mental health consultation. In addition, we treat most illnesses, injuries, and chronic diseases. If you have a chronic illness such as asthma or diabetes, we ask that you schedule a time to come in to establish care and go over a treatment plan for the school year. Appointments are available by calling 320-200-3247 or by stopping by our clinic.

To be compliant with Minnesota State Law, all students are required to submit documentation of:

- Tetanus/diphtheria (Td or Tdap) vaccine within the past 10 years
- Two doses of measles/mumps/rubella (MMR) vaccine

In addition, all students are recommended to have:

- 1 dose of immunization against meningococcal meningitis (Menactra, Menomune, Menveo, or other A,C,Y,W-135), either initial or booster, if under the age of 22
- Full series of immunizations against Hepatitis A and Hepatitis B
- HPV vaccine (Gardasil) series
- Seasonal Influenza vaccine
- Varicella (chicken pox) vaccine series or documentation of the disease
- Polio vaccine series

Failure to provide documentation of the mandatory vaccines will result in a hold placed on the student's registration.

International students enrolled at St. John's University are required to have tuberculosis screening completed prior to the start of the semester. Please print the [TB screening form](#) and turn it in prior to June 15th for fall admission or January 15th for spring admission.
