IMPORTANT!

Did you know?

If you sign up for a course & do not attend, you are responsible for formally dropping the course either through *WEB Self Service* the first four days of class or by submitting a completed drop/add card to the Registrar's Office by the published deadlines. Failure to do so can result in a failing grade for the course.

COLG 305-01A & 02A: Concepts Basic to Health Care Policy, Economics & Management, 3 credits

Instructor: Gary Gillitzer

Within the context of a liberal learning environment and Catholic and Benedictine values, learners will develop the basic knowledge and skills to function effectively as a member of an inter-professional health care team. Concepts and context (e.g. social values, politics, economics) that are foundational to effective management, cost-containment and policy development/reform will be applied to the analysis of contemporary health care issues. Learners will be actively involved in influencing policies that shape health and/or healthcare.

CORE 390-09A: Senior Seminar: Race & Justice in American Legal History, 4 credits

Instructor: Eugene Garver

This course will look at the history of racial equality as treated by the U. S. Supreme Court. Primary focus will be the three crucial cases of Dred Scott v. Sanford, Plessy v. Ferguson, and Brown v. Board of Education but we will also extend the history a bit on both ends, looking at arguments about slavery at the founding of the Constitution, and at cases from the 50 years since Brown. We will try to put the legal history in a wider social context, and look at changing meanings equally over the last 200 years.

CORE 390-10A: Senior Seminar: Reading for Life, 4 credits

Instructor: Mickey Cunningham

Everyone loves a good story. Great stories can offer far more than mere recreation. Stories can often provide us with rich character portraits that can reveal the subtleties and nuances of what it means to live well and responsibly. In this course we shall use novels and films to address Socrates' most basic ethical questions, "How should one live?" and "What sort of person should I be?" We shall do so by attending to all the concrete, particular details of real-life and fictional characters thoroughly embroiled in the "business of living." Reading well offers the possibility of vicarious experience and ultimately, ethical insight. The stated goal of the Senior Seminar Core requirement is to help students to develop the ability to make good moral judgments. This is a life-long process but diligent, careful, thoughtful attention can hone the ability to think about Socrates' questions. Readings may include some of the following: *The Remains of the Day*, *The Sound of One Hand Clapping*, *Beloved*, *Their Eyes Were Watching God*, *Death and the Maiden*, *Hecuba*, *The Crucible*, *How To Be Good*, and *Crossing to Safety*.
